

THE ERGO BACK-UP HANDLE

THE ERGO BACK-UP HANDLE

Reduce back strain with the Ergo Back-up Handle. Operators who are required to travel frequently in reverse often grab the overhead guard. This is a dangerous practice and has resulted in serious injuries.

The Ergo Back-Up Handle Features:

- Eases back stress when turning around.
- Fits any lift truck.
- Installs in minutes
- Keeps operators hand inside the operator compartment
- Optional horn switch allows operator to keep left hand on steering wheel.

Ergo Back-up Handle

A close-up photograph of a person's hand holding a black, ergonomic back-up handle. The handle has a textured grip and a small red indicator light. The background is a blurred industrial setting with yellow and blue elements. The text 'Ergo Back-up Handle' is overlaid in the center of the image.
