

Accu-Tilt

Fork Tilt Level Indicator

The Accu-Tilt shows the operator the level of the forks at all times thereby reducing potential damage by piercing product or racking and increasing productivity by eliminating the guess work. Easy to install and for the operator to understand. It pays for itself in a manner of weeks. Installs in 2 minutes without any tools on any counterbalance lift truck.

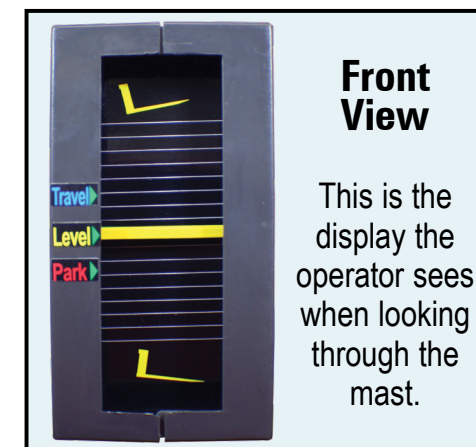

- Reduce product damage
- Reduce rack damage
- Reduce pallet damage
- Increase productivity
- Decrease training time for new operators

*Our Most Innovative
Product of the Year!*

ALWAYS KNOW THE TILT ANGLE OF THE FORKS!

Accu-Height

Fork Height Indicator

The Accu-Tilt combined with the Accu-Height allows the operator to determine the correct height of the forks as well as the level of the forks. The Accu-Height is a simple sticker system used to mark the correct rack height at the various rack levels. The operator can now quickly determine the correct height of the forks as they enter the pallet.

The combination of the Accu-Tilt and the Accu-Height will ensure increased productivity and less product damage.

* Accu-Height is to be used with Accu-Tilt

Correct Fork Height for Entry and Exit of Pallet

By matching the indicator sticker with the color marker, the correct fork height is obtained to enter the pallet safely.
